A SEGMENTATION & POSITIONING CASE · OCTOBER 2026

SNITCH · BENGALURU · D2C MENSWEAR

Plant the flag, *then defend it.*

Snitch closed FY26 at ***₹900 Cr***, up 80% on the year. The next ***₹500 Cr*** do not come from being a faster Souled Store or a cheaper Rare Rabbit. They come from owning one segment — and then defending the position.

₹1,400.

FY28 REVENUE TARGET

from a FY26 base of ₹900 Cr.

+₹500 Cr · 18 months

One sentence the leadership team should hold us to —

Own the metro 22–30 year-old daily-drop man — and *only him* — to take Snitch from *₹900 Cr* to *₹1,400 Cr* by FY28.

SUPPORT 1 · SCALE

Snitch is the only menswear D2C brand that has crossed ₹500 Cr while staying near breakeven.

FY25 revenue **₹498 Cr**; FY26 **₹900 Cr (+80%)**; EBITDA 2–3% — while Souled Store, Bewakoof, Bonkers Corner and XYXX each hold a different anchor.

SUPPORT 2 · COMPETITIVE GAP

The category has four corners and one empty middle.

Pop-culture-licensed Souled Store, mass-quirky Bewakoof, premium-innerwear XYXX, streetwear Bonkers. No one owns "daily drop, design-first, premium-but-accessible" for the metro 22–30 man.

SUPPORT 3 · UNIT ECONOMICS

≈45–60 day inventory turns and a 45% repeat rate already exist.

They are the brand's moat. Snitch's next ₹500 Cr is won by routing these strengths through one segment — not by spreading them across four.

NON-OBVIOUS INSIGHT · WHY THIS BEAT POSITIONING

Snitch's best lever is not a new product line. It is treating the drop-obsessed metro buyer differently from the value-hunting tier-2 buyer — and concentrating paid spend on the former.

IMPACT RANGE · 18 MONTHS

₹120 – ₹200 Cr

incremental revenue from a metro-22-30-first repositioning. Low end holds the brand-fit curve; high end assumes a ₹1,500–₹2,500 premium-tier launch.

THE ASK · FOUR DECISIONS

Approve metro-22-30 as the brand's only beach-head. Approve a premium drop-tier line at ₹1,500–₹2,500. Approve continued offline push to 200+ stores. Approve brand-led, not promo-led, marketing.

S SITUATION

Snitch grew revenue *82-fold* in five years — from *₹11 Cr* in FY21 to *₹900 Cr* in FY26.

FY21

₹11 Cr

Largely a B2B trading firm pivoting out of unsold inventory. Limited D2C footprint.

FY24

₹243 Cr

Net profit ₹4.4 Cr. ROC filing year. Doors opened on D2C post-pandemic pivot.

FY25

₹498 Cr

Near breakeven. Repeat rate ~45%. Retention 65%. Marketing ₹83 Cr; ad-cost rationalised 50%.

FY26 (UNAUDITED)

₹900 Cr

EBITDA 2–3% (~₹18–27 Cr). 115 stores. Snitch Quick live in 4 cities. Founder targets ₹1,400 Cr in FY27.

C COMPLICATION

The brand sells to everyone from a 21-year-old in Surat to a 33-year-old architect in Bengaluru — but its ad spend, store roll-out and discount cadence do not yet act differently across them.

COMPARED WITH FOUR DIRECT PEERS

The Souled Store — *₹492 Cr*

FY25 · +37% YoY · pop-culture & licensing

Same customer base, but licence-dependent. Quicker to a teen than to a professional.

Bewakoof — *₹175 Cr*

FY25 · +8% YoY · recently acquired for ~₹200 Cr

Quirky-first, mass-price. Operating losses widened. A cautionary tale for everyone-priced brands.

Bonkers Corner · XYXX — *₹123 · ₹192 Cr*

FY25 · streetwear & premium innerwear, profitable

Both profitable, both narrow. Plus The Bear House at ~₹140 Cr targeting 1,500 stores by FY28. A crowded mid.

Q THE QUESTION

At a ₹1,000 Cr scale, which customer do we plant our flag with — and which do we honestly defer?

Four candidates — and one we will honestly call secondary.

Base: **age · life-stage · city tier · shopping mission** (modified Kotler STP; 4 segments scored against size, growth, profit, brand fit, competitive gap). Sizes shown are ***estimates*** triangulated from internal repeat cohorts and disclosed store-cohort splits.

TARGET · SEGMENT 1

The Design-First Man

WHO & WHERE
22–30 male, college / first-job / pre-marriage. Tier-1 + tier-2 metros. Style-aware but not premium-rich.

TOP NEEDS
Distinctive but affordable drop-led style. Frequent refresh ~once a month. Fit + cut that photographs well.

SIZE · WTP · FIT
~35% of revenue (est.). WTP ₹800–₹1,800. Brand fit 5/5. Repeat 45%+.

CHANNEL
D2C site, Snitch stores, Instagram, Myntra.

SECONDARY · SEGMENT 2

The Crisp Commuter

WHO & WHERE
26–35 working pro, tier-1 metros. Office to dinner in the same outfit.

TOP NEEDS
Polished basics, neutral palette , premium shirt / chinos. Quality over novelty.

SIZE · WTP · FIT
~20% (est.), ₹1,200–₹2,500, brand fit 3/5. Currently under-served.

STATUS
Phase 2 · the ₹1,500+ tier

SEGMENT 3

The Tier-2 Trend Hunter

WHO & WHERE
19–28 male, tier-2/3 aspirational. First real wardrobe he built with his own money.

TOP NEEDS
Looks that read metro; price under ₹999. Discount-responsive, frequency-led.

SIZE · WTP · FIT
~30% (est.), ₹399–₹899, fit 3/5. Pulls the topline, hurts margin.

STATUS
Run with discipline, don't lead with this.

DEFERRED · SEGMENT 4

~~*The Quiet Replacement Buyer*~~

WHO & WHERE
28–40, metro + tier-1, replenishment loop. Plain tees, boxers, basics.

TOP NEEDS
Reliable fit, fair price, low discovery cost. Replenishment — not identity.

SIZE · WTP · FIT
~15% (est.), ₹399–₹799, fit 4/5. Won't fund the ₹500 Cr story.

STATUS
Defended, not marketed.

Snitch's customer is split four ways. The next decision is who we serve first, who we serve quietly — and who we honestly stop spending on.

Four segments, weighted five ways. The math picks the Design-First Man.

Composite is a weighted mean across five scored axes (1–5). Weights sum to 100%. Size and brand fit weighted highest, profit potential second.

SEGMENT	SIZE 25%	GROWTH 20%	PROFIT 20%	BRAND FIT 20%	COMP GAP 15%	WEIGHTED
PRIMARY TARGET **Design-First Man** 22–30, tier-1 + tier-2 metros	4	5	5	5	5	**4.65**
SECONDARY **Crisp Commuter** 26–35, working pro	3	3	4	3	3	**3.30**
RUN WITH DISCIPLINE **Tier-2 Trend Hunter** 19–28, tier-2 / 3 aspirational	4	5	3	3	2	**3.45**
DEFERRED ~~Quiet Replacement Buyer~~ 28–40, replenishment loop	4	3	3	4	1	**3.05**

THE CALL

Concentrate paid spend on Segment 1 for 18 months.

PHASE 2 TRIGGER

Once Seg-1 share crosses 45% and repeat rate clears 50%, open the Crisp Commuter tier.

PHASE 3 TRIGGER

Tier-2 expansion becomes its own programme only after metro NPS surpasses 50 and ₹1,500–₹2,500 tier is profitable.

UNTIL THEN

Tier-2 and replenishment buyers still served — but not chased. No promo-led motion just to chase them.

One primary beach-head. Two phases gated by triggers. Three quarters of clarity beats four quarters of "everyone is our customer."

SCORES DERIVED FROM INTERNAL REPEAT COHORTS, STORE ZIP-CODE MIX AND DISCLOSED PEER FINANCIALS

Plant the flag where no one is sitting — premium, drop-led, without licence dependency.

THE PERCEPTUAL QUADRANT · X IS PRICE · Y IS TREND ORIENTATION

Source: competitor websites, Snitch IR + cohort triangulation. Brand-fit scores internal.

POSITIONING STATEMENT · CANONICAL FORM

For style-aware men 22–30 who want distinctive but affordable everyday style , Snitch is the design-forward daily-drop menswear brand . Unlike Bewakoof we are not mass-quirky; unlike Souled Store we don't licence pop culture; unlike XYXX our basics are drop-led. Result: a monthly wardrobe refresh.

THE 4P TRANSLATION

PRODUCT

Keep 35-a-day cadence. Add ₹1,500–₹2,500 premium tier. ~7,000 SKUs.

PRICE

Lift AOV from ~₹950 to ~₹1,150 over 4 quarters. Cap mass promo at 12%.

PLACE

200+ stores by FY27. 12 "drop-stores" in metros. Snitch Quick to 8 cities.

PROMOTION

Drop-led creator narratives, 28/quarter. Cut mass-sale events.

Four quarters to fund, four decisions to take, three risks to defend against.

IMPACT RANGE · 18 MONTHS

₹120 – ₹200 Cr

Low: brand-fit curve holds. High: premium tier launches into ₹1,500–₹2,500 at 18% of orders.

A ROADMAP · FOUR QUARTERS, ONE BEACH-HEAD, OWNER NAMED

Q1 · FOUNDATION

Audit, customer panel, segment lock.

Brand audit, segment lock, 600-customer qualitative panel. Founder + Brand Lead + D2C Lead. Output: positioned deck, brief, segment charter.

Q2 · PRODUCT

Premium-tier design, pricing reset.

Design first 50 SKUs of the ₹1,500–₹2,500 tier. Cap mass promo at 12%. Drop cadence unchanged. Brand & Design Lead + Buying Lead.

Q3 · STORES

12 metro drop-stores, 65 more overall.

Pilot 12 "drop-store" formats in Bangalore / Mumbai / Delhi. Store count 115 → 180. Founder + COO + Real Estate Lead.

Q4 · NARRATIVE

28 creator-drops / quarter, brand-led.

Replace discount-driven creatives with creator-led drop narratives. Cut mass-sale events. Brand & Performance leads + 28 creators.

B RISKS · THREE THAT CAN BREAK THE CASE

RISK 1 · PRICE-COMPRESSION

₹399 band floods with quick-commerce copycats.

Snitch Quick is 10% of online revenue already, growing fast. Hijack risk: a new Shein-style entrant floods ₹399 tees — we are remembered as "one of many". Mitigation: refactor the value band, do not fight the floor.

RISK 2 · POP-CULTURE PIVOT

Souled Store / Bear House scale licensed drops faster than expected.

The category is converging on occasion-led, fan-IP-driven drops; metro 22–30 may shift toward Souled Store or Wrogn. Mitigation: own design-led drops, not IP-led ones. We make the occasions.

RISK 3 · TURN-DRAG

Inventory turns slip past 70 days as we expand SKUs and 200 stores.

45–60 day turns are the moat. Each new SKU beyond 7,500 erodes it. Mitigation: weekly SKU kill list; drop-store formats that turn faster than racks; supply-chain guardrail in COO scorecard.

C DECISIONS NEEDED FROM THE LEADERSHIP TEAM

DECISION 1 · APPROVE BEACH-HEAD

Confirm Design-First Man as the primary — and Tier-2 Trend Hunter as Phase 3 only.

DECISION 2 · APPROVE PREMIUM TIER

Approve ₹1,500–₹2,500 drop-tier launch. Cap promo at 12%. Lift AOV.

DECISION 3 · APPROVE STORES & QUICK

Approve 200+ store plan and 12 drop-store pilots. Snitch Quick to 8 cities.

DECISION 4 · APPROVE BRAND-LED MOTION

Cut mass-sale events. 28 creator-led drop moments per quarter. Brand-led, not promo-led.

IMPACT RANGE IS AN ESTIMATE · COMP RESULTS FROM INC42, ENTRACKR, BSAUDITED FY25 ROC FILINGS
